

La Costa Avenue Alternatives

By Doug Bilse, T.E.

Traffic Signal Systems Engineer

La Costa Avenue Traffic Issues

- Speeding
- Sight Distance
- Traffic Volume

Short Term Solution= *Signing and Striping*

- Install warning signs along residential driveways
- Install *Speed Feedback Signs* at key locations
- Prohibit parking adjacent to residential driveways
- Prohibit left turn access/egress to residential driveways (painted median)

Warning Signs

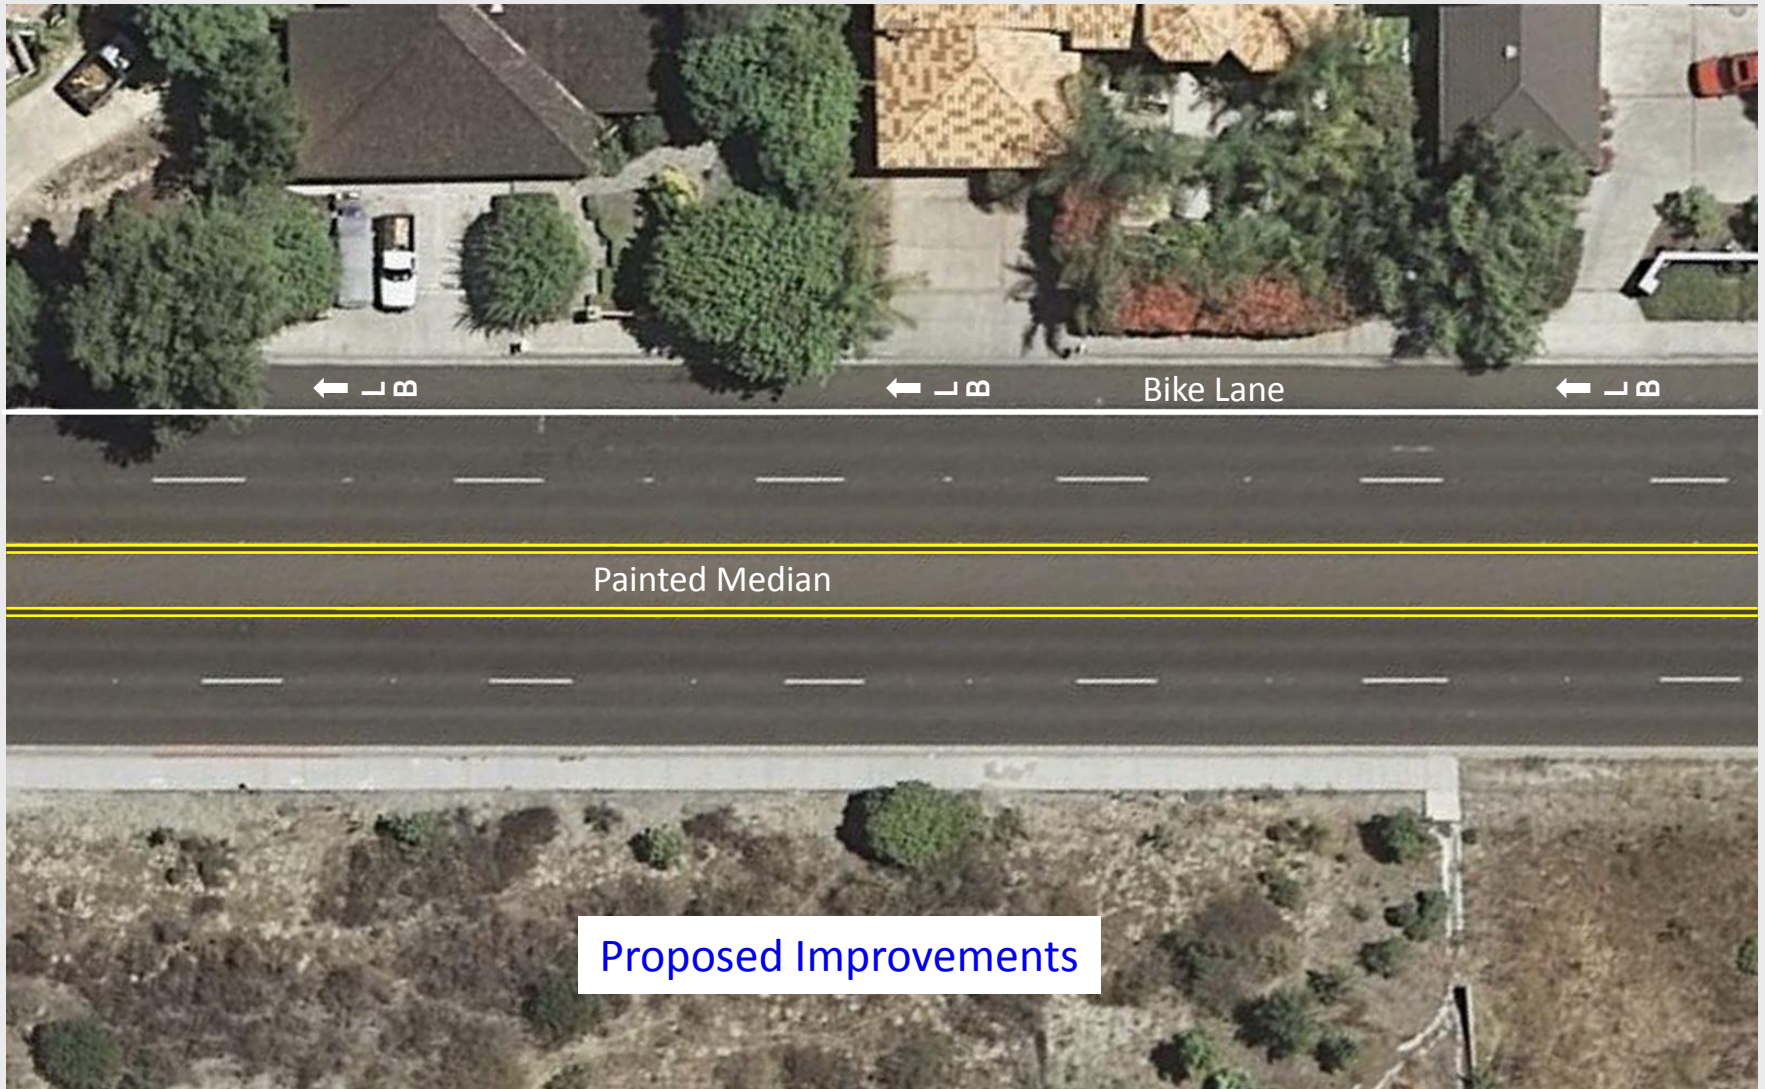

Speed Feedback Signs

Existing Signing and Striping Conditions

Next Steps for Short Term Solutions

- Implement warning and speed feedback signs
- Council direction on parking restrictions
- Council direction on left turn restrictions

Long-Term Solution= Complete Streets Design

- Safety and Livability
- Traffic Calming Measures
- Mini-roundabouts in lieu of proposed traffic signals
- Road Diet

Next Steps for Long-Term Solutions

- Analyze Road Diet
- General Plan Issues
- Growth Management Program Issues
- Public Outreach

Recap

- Install warning signs and speed feedback signs
- City Council input on proposed parking restrictions
- City Council input on proposed turning restrictions
- Staff to prepare signing and striping plan for consideration at upcoming City Council meeting
- Staff to make presentation at upcoming City Council meeting on proposed Road Diet/Traffic Calming Plan
